Despite the enthusiasm for Bimanual Phacoemulsification, surgeons performing this technique face new issues, including sub-optimal infusion and wound leakage.

You also need to consider the statute of limitations, which means you only have a set amount of time to initiate legal proceedings.

This supplement should be discontinued two weeks prior to surgery.

Ham, plotting in league with Tubal-Cain, has lain a trap for his father.

The activity of -DOM (and -2C-T-4) demonstrates that the two methoxy groups on the psychedelic phenethylamines are not strictly limited to the 2,5 positions on the phenyl ring.
